Dear Mr Barnes,

Re: Support for the VTCT Level 3 Certificate in Personal Training (QCF) – 500/8721/6

I am writing to offer support for the VTCT Level 3 Certificate in Personal Training (QCF). Having reviewed this qualification we are confident that this qualification is challenging and comprehensive and will certainly prepare learners for employment as a personal trainer.

It also adheres to the common qualification structure based on the current National Occupational Standards as is accepted by the Register of Exercise Professionals (REPs). This allows graduates to access the register at Level 3 and sufficiently prepares learners for employment as a personal trainer making this qualification a desirable choice for students.

We are planning to run the VTCT Level 3 Certificate in Personal Training throughout the 2015/16 academic year. We anticipate our expected demand to be in excess of 1000 learners.

Yours sincerely,

Joe Turner
