Dear Carina,

Re: Support for VTCT qualifications

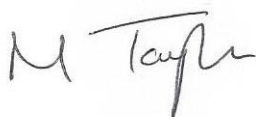

I understand that VTCT is seeking formal support for its newly developed Level 3 qualifications in barbering to be included in the technical level category of the Department for Education's 16-19 performance tables. The qualifications are as follows:

- 601/6992/8 - VTCT Level 3 Diploma in Barbering
- 601/6993/X - VTCT Level 3 Extended Diploma in Barbering

I would like to thank you for taking the time to present these qualifications to me and my colleagues. We were very impressed and can confirm that the rules of combination are sound, the breadth and depth of content included in units is comprehensive and appropriate for the level of the qualification, and the assessment methods used, particularly the practical graded assessments and graded synoptic assessment mirror practice in industry. It was also encouraging to see your new sample assessment papers that are relevant and meaningful and which will certainly raise the bar in terms of quality in the barbering sector.

Please accept this letter as support for the qualifications listed.

Yours sincerely,  
Mike Taylor
