4. Guidance on assessment

4.1 Centre assessor requirements

This qualification is assessed and quality assured by centre staff. They will set work to improve practical skills, knowledge and understanding. For practical elements, apprentices will be observed by centre assessors. All work must be collected in a portfolio of evidence and cross-referenced to requirements listed in the on-programme assessment record.

The on-programme assessment record is the apprentice's property and must be in their possession when they are being assessed or quality assured. It must be kept safe. In some cases the centre will be required to keep it in a secure place. The apprentice and assessor will together complete this book to show achievement of all learning outcomes, assessment criteria and ranges.

4.2 Internal quality assurance

Centres must have an internal quality assurer (IQA) to ensure assessment decisions are consistently applied between assessors, and that apprentice work is to the required standard. Each assessor's work must be checked and confirmed by the IQA. Assessment decisions must be standardised to ensure that all apprentices' work has been assessed to the same standard and is fair, valid and reliable.

Evidence of internal quality assurance must be recorded, retained and made available for the external quality assurer (EQA).

4.3 External quality assurance

An external quality assurer (EQA), appointed by VTCT, will visit the centre to sample and quality-check assessments, the internal quality assurance process and the evidence gathered. 5. Assessment

5.1 Summary of assessment methods

This qualification comprises internal and external assessments. Apprentices must achieve the assessments detailed in the table below.

Unit product code	External theory examination	Practical observations	Portfolio of evidence
Mandatory units			
UHB195	✓	✓	✓
UHB196	✓	✓	✓
UHB200		✓	✓
UHB201		✓	✓

5.2 External assessment

5.2.1 Knowledge and understanding criteria

Knowledge and understanding criteria within the units which will be assessed by external theory examinations have been highlighted orange within the on-programme assessment record. The remaining knowledge and understanding (including the knowledge range) criteria which is coloured black will need to be recorded in the following types of acceptable evidence, which are not limited to:

- Professional discussion
- Portfolio of evidence
- Reflective diary on own practice in an appropriate working environment
- Written assignments
- Projects/case studies
- Coursework
- Task-based controlled assessment
- Witness statements

5.2.2 Theory examinations

Theory examinations will be set and marked by VTCT. The theory exams will consist of multiple choice questions. Questions will vary year on year and will cover all learning outcomes within those units that are externally examined. Each theory exam has a pass mark of 70%.

Examinations must be undertaken by apprentices under controlled examination conditions in accordance with VTCT's policies and procedures for 'Instructions for Conducting Examinations' which can be found on the VTCT website www.vtct.org.uk.

5.2.3 Retaking external examinations

Apprentices who fail to achieve the required Pass mark are permitted to re-sit after having sufficient teaching and additional study time. There is no limit to the number of retakes an apprentice can carry out. External examinations will be subject to rotation by VTCT. Re-sits are subject to charges as stated in the VTCT Service Fees.

5.2.4 Reasonable adjustments and special considerations

A reasonable adjustment is an adjustment made to an assessment for a qualification that is approved or set in place before an assessment activity takes place; it constitutes an arrangement to give the apprentice access to the qualification.

Information on the reasonable adjustments and special considerations allowed for the external examinations within this qualification can be found in the document library on the Linx2Exchange section of the VTCT website.

5.3 Internal assessment

5.3.1 Practical observations

Apprentices must carry out practical tasks which must be observed and marked by centre assessors. Assessors will observe the performance of practical tasks and must judge apprentices' performance against specified assessment criteria stated in the Apprenticeship On-programme Qualification assessment book. The assessor will sign off an outcome when all the criteria have been completely achieved.

The practical assessment must take place in a real or realistic working environment on a real or realistic client.

Practical assessments should be administered towards the end of the period of learning when apprentices are suitably prepared. Centres may determine the precise timing of practical assessments to suit local needs. Where evidence is not naturally occurring during practical observations, supplementary evidence may be used where specified within the Apprenticeship On-programme Qualification assessment book.

5.3.2 Realistic working environment (RWE)

Apprentices should be assessed through performance in the workplace.

As far as reasonably practicable the assessment should match conditions of a realistic working environment (RWE). In other words, the conditions should match those found in the workplace, including facilities, equipment, products, as well as relationships, constraints and pressures.

The RWE must adhere to the following principles:

- Providers must develop realistic management procedures that incorporate a 'salon image' and sales and marketing policy to attract the type and number of clients needed to ensure the requirements of the qualification can be met and achieved
- All on-programme assessments must be carried out under realistic commercial pressures and on clients, not other apprentices within the same cohort. Clients used should vary in age and ethnicity
- All services/treatments performed must be completed in a commercially acceptable timescale
- Apprentices must be able to achieve a realistic volume of work
- The space per working area must conform to current health and safety legislation and commercial practice

- The range of services/treatments, professional products, tools, materials and equipment must be current and available for use
- A reception facility where clients are greeted, payment is taken and general enquiries and appointments can be made. A payment facility must be available
- A retail facility must be provided, stocked with products that relate to the clients' needs and complements the services/treatments offered
- All by-laws, legislation or local authority requirements that have been set down in relation to the type of work that is being carried out must be taken into full account

5.3.3 Simulation

Simulation is not acceptable for any units within this qualification.

5.3.4 Witness statements

A witness statement can be made by someone present while the apprentice was performing an activity on-the-job and may be used to support the assessment process.

Witness testimony should only be used as an additional method of assessment when all observations have been carried out by an assessor.

Where witnesses are used:

- Evidence must be available that demonstrates the individual has the necessary expertise in the area for which they are providing the testimony
- Any relationship they have with an apprentice must be declared to the assessor to determine the value of the testimony provided
- They must be fully briefed and clear about the purpose of their testimony, it will only be regarded as supporting/supplementary evidence and the final decision regarding the apprentice's ability to meet the evidence requirements will be the responsibility of the on-programme assessor

Those who could fulfil the role of a witness for this qualification could include (this list is not exhaustive):

- Barber
- Barbershop Manager
- Receptionist
- Trainer
- Marketing director
- Client

5.3.5 Portfolio of evidence

As part of this qualification apprentices are required to produce a portfolio of evidence which contains assessed evidence covering all the assessment criteria and range (where appropriate) in each unit, these can be found within the Apprenticeship On-programme Qualification assessment book. A portfolio of evidence will confirm the knowledge, understanding and skills the apprentice must achieve.

The portfolio of evidence will be marked pass or fail by the centre lecturer/assessor and sampled by the EQA.

This portfolio of evidence may take the following forms (this list is not exhaustive):

- Professional discussion
- Portfolio of evidence
- Reflective diary on own practice in an appropriate working environment
- Written assignments
- Projects/case studies
- Coursework
- Task-based controlled assessment
- Witness statements

All evidence should be documented and cross-referenced to unit outcomes. Oral questions and professional discussions should be recorded where outcomes are not naturally occurring.

5.3.6 Authentication of apprentice work

The units in this qualification require evidence to be produced for assessment under direct supervision and controlled conditions, some units require apprentices to produce evidence without supervision.

Where this is the case, centres must be confident that apprentices' work is authentic. In such cases, apprentices must complete a Declaration of Authenticity to confirm that the work produced is their own. This must be countersigned by an assessor. A Declaration of Authenticity form is available to download from the VTCT website.

Centres must ensure that all apprentice evidence is available to the EQA.

The authentication of apprentice evidence is the responsibility of the centre.

5.4 Grade boundary review

Grade boundaries for units and the overall calculation for the qualification grade are open to annual review. Following this review, these boundaries and overall calculations can be adjusted by VTCT. This review and possible change within a qualification are to ensure the standard of the qualification grade is upheld throughout the qualification's lifecycle.
