2 Declared purpose

2.1 Qualification purpose

The main purpose of the VTCT Entry Level Extended Award in Hair and Beauty Skills (Entry 3) (VRQ) is to enable learners to perform hair and beauty skills and techniques on themselves. Each of the units in this qualification will enable learners to develop techniques to help them care for themselves whilst developing their understanding of hair, beauty and hygiene products. These are really important self-care skills which will help learners to mix well with others, whether in an education or in a work environment. Caring for personal hygiene and grooming are part of the essential skills needed to live a healthy, confident and happy life.

All units in this qualification have been designed as a foundation for further study both in the hair and beauty sector and more broadly. They will develop foundation knowledge of the hair and beauty sector and use this as a basis for further learning at Level 1, as a full time or part time learner.

This qualification will enable learners to develop a broad range of practical hair and beauty skills and techniques involved in creating a total look; via the mandatory unit:

- Create your own hair and beauty image

This unit will enable learners to produce a total look based on a day, evening or a special occasion look. They will be able to create a mood board of their ideas based on a theme and this will help with the planning of the finished look.

Learners will also have the opportunity to further develop their understanding and skills by selecting optional units including: personal care and hygiene, paint your own nails, care for your own skin, shampoo and condition your own hair, blow-dry and finish your own hair, apply your own make-up, care for your own feet, communication skills, an introduction to the hair and beauty sector and to the use of hair and beauty tools and equipment.

Also included in the optional section of this qualification learners will have the opportunity to develop their knowledge and understanding of relevant hair and beauty and hygiene products, the principles of hygiene and preventing cross-infection. They will also develop communication skills that will assist them to present themselves and interact effectively with others.

This qualification forms part of a suite of fifteen VTCT Foundation Skills Qualifications at Entry Level 3, Level 1 and Level 2.

2.2 Prerequisites for this qualification

Learners must be aged 14 or over at the time of certification for this qualification.

To be accepted as a learner on this qualification, learners must achieve a successful interview with the centre.

2.3 Qualification registration flexibility

Centres can register learners at a particular level on a smaller qualification with the option to transfer to another, same-level qualification within this suite. In some cases learners may choose to move onto a larger qualification, others may wish to opt for a smaller qualification.

For example:

You could register your learner on one of the smaller Entry Level 3 qualifications e.g.

- VTCT Entry Level Award in Hair and Beauty Skills (Entry 3) (VRQ) (2 units)

If your learner achieves sufficient additional units, you may decide to transfer the learner's registration to a larger qualification e.g.

- VTCT Entry Level Certificate in Hair and Beauty Skills (Entry 3) (VRQ) (5 units)

You can re-register onto a larger qualification and **only pay the difference between the two registration fees**. VTCT will waive the administrative transfer fee for this re-registration.

Qualification	Registration fee
VTCT Entry Level Award in Hair and Beauty Skills (Entry 3) (VRQ)	£32.00
VTCT Entry Level Certificate in Hair and Beauty Skills (Entry 3) (VRQ)	£58.00
Re-registration fee	£26.00

VTCT will waive the normal transfer fee for a centre wishing to transfer a learner from an award to a certificate, however the difference between the two registration fees, remains payable.

Registration transfers within the Foundation Skills Suite - the rules:

- There is no time limit for a free transfer within the suite of Foundation Skills Qualifications (other than the normal registration end date).
- A free transfer is only applicable for learners transferring from one Skills Qualification to another Skills Qualification, at the same level.

For further information call (02380) 684500 or email customersupport@vtct.org.uk

2.4 Progression opportunities

On completion of this qualification learners will be able to progress to the next level of vocational learning.

Progression qualifications include:

- VTCT Level 1 Award in Hair and Beauty Skills (VRQ)
- VTCT Level 1 Extended Award in Hair and Beauty Skills (VRQ)
- VTCT Level 1 Certificate in Hair and Beauty Skills (VRQ)
- VTCT Level 1 Extended Certificate in Hair and Beauty Skills (VRQ)
- VTCT Level 1 Diploma in Hair and Beauty Skills (VRQ)

2.5 Support for the qualification

This qualification has been reviewed by education and training providers who have confirmed that learning about the hair and beauty industry, will serve as a valuable foundation for helping learners to operate independently and effectively in life, learning and work.

This qualification is the perfect foundation for further learning and with the emphasis towards practical skills will provide an opportunity for the disengaged, to re-engage with learning through the creative subjects of hairdressing and beauty therapy.

2.6 Funding

For details on eligibility for government funding please refer to the following websites:

3 Qualification structure

To be awarded the Entry Level Award in Hair and Beauty Skills (Entry 3) (VRQ) learners must achieve a minimum of 4 units (120 GLH/12 credits). This equates to; 1 mandatory unit and a minimum of 3 optional units.

To be awarded this qualification learners must achieve a Pass grade in:

- the mandatory unit
- a minimum of 3 optional units

The minimum TQT required to achieve this qualification is **132**.

Mandatory unit					
Code	Unit ref.	Title	Credit	Level	GLH
UCO4	H/507/0500	Create your own hair and beauty image	3	E3	30
Optional units – learners must select a minimum of 3 unit/9 credits from this section of the qualification:					
Code	Unit ref.	Title	Credit	Level	GLH

UHB6	L/507/0507	Shampoo and condition your own hair	3	E3	30

4 Grading model

Units in this qualification are assessed using an achievement-based model, in that theory and practical criteria are either 'Achieved' (Pass) or 'Not Yet Achieved' (Fail). The assessment instrument used in Entry Level 3 units, is a multi-component Pass/Fail marking rubric containing learning outcomes and assessment criteria, which are used to judge evidence based on either portfolio evidence (theory) or observed performance (practical).

To achieve a Pass in this qualification, learners must achieve all learning outcomes and assessment criteria for each unit in the qualification. The learning outcomes and assessment criteria can be found in the '**What you must know and do**' sections of the Record of Assessment book for each unit.

There may be instances when learners achieve more units than the minimum number specified in the rule of combination. In such cases, the mandatory units and best grades from the specified number of optional units will be used to calculate the overall qualification grade. Units achieved which do not contribute to the overall qualification grade will be included on the learner's certificate transcript.

Centres must establish the total number of points achieved from units, which will be used to calculate the overall qualification grade.

5 Centre requirements

5.1 Teachers and assessors

Teachers, tutors and assessors must be familiar with the assessment requirements of each unit, as set out in this qualification specification.

It is recommended that teachers or assessors hold or are working towards an assessor or teaching qualification, although this is not a formal requirement.

Centres must seek to ensure, via internal training and standardisation activities, that teachers and assessors make assessment decisions relating to this qualification which are; consistent, valid, fair and reliable.

5.2 Internal Quality Assurance (IQA)

Centres must demonstrate that internal quality assurance procedures are in place, to ensure standardisation across assessors, assessment decisions and assessment sites. VTCT expects that all centre staff involved in the delivery, assessment or internal quality assurance relating to this qualification; participate in internal standardisation and quality assurance activities.

It is recommended that staff responsible for quality assurance within centres, hold an Internal Quality Assurance qualification, although this is not a formal requirement.

Centres that have lone assessors working with one cohort will not be expected to carry out internal verification standardisation. This type of centre will be subject to 100% External Quality Assurance (EQA) sampling.

5.3 External Quality Assurance (EQA) and sampling

Centres offering this qualification will be allocated a VTCT External Quality Assurer (EQA), who will visit the centre.

The EQA will sample all cohorts to review assessor decisions and IQA standardisation activities, to ensure a standardised approach across assessors, assessment decisions and assessment sites.

Direct claim status for this qualification will be achieved on completion of a satisfactory EQA visit report.

EQAs visiting centres with lone assessors, working with just one cohort, will undertake 100% sampling of learners work.

6 Resources

6.1 Resources required for delivery

Each unit in this qualification has specific resource requirements for delivery. Some units can be delivered in a classroom setting and some units must be delivered in a hair and/or beauty bespoke training salon or a realistic salon.

- Definition of a classroom – desks/work area, whiteboard/smart board, computers/access to internet, books, magazines and stationery resources
- Definition of a training salon – desks/work area, whiteboard/smart board, computers/access to internet, books and magazines, salon equipment
 - For hairdressing units – back/front basin, hood driers, work station, client chairs, wall/workstation mirror, work trolleys, back mirror, hair products, tools and small equipment, towels
 - For beauty units – stool/chair/couch, trolley/work surface, lined bin, bowl, mirrors, towels, products suitable for facials, manicures, pedicures and make-up
- Definition of a realistic salon – a working environment with a full range of equipment where a range of services/treatments in either hairdressing, barbering or beauty therapy occurs. This may include:
 - Reception area, back basins, hood driers, work stations, client chairs, wall/workstation mirrors, work trolleys, back mirrors, hair products, beauty products, beauty couches, beauty stools, screens (in beauty) tools and electrical equipment e.g. hair straighteners

In training salons and realistic salons it is recommended that the following health and safety resources are made available for learners:

- Personal Protective Equipment (PPE) to include, gloves, aprons and capes
- Gowns/protective items for learners
- Bins with disposable liners for disposing of waste
- Disposable paper tissues/sheets/couch roll
- A UV sterilising cabinet is recommended, however a sterilising jar with cleaning fluid is an acceptable alternative along with spray/lotion or wipes for cleaning tools after use to prevent cross-infection
- Water container (if no sink available)
- Towels. Towel options include cotton/fabric reusable items; in such cases a towel receptacle for used towels is required alongside a method of washing them after use. Disposable towels are available as an alternative
- Mirrors for both make-up and hair

6.2 Record of assessment (RoA) books

VTCT RoA books have been designed with learners in mind. The RoA is a logbook, used to record learner assessments and the final sign-off for the qualification.

RoA books contain the following sections:

- What you must know – this section details the knowledge that will be assessed
- What you must do – this section details the practical performance that will be assessed
- What you must learn – this section provides guidance on the recommended knowledge and skills required to enable learners to achieve each of the learning outcomes in the units.

The RoA book can be downloaded for free from the VTCT website:

<http://qualifications.vtct.org.uk/finder/qualfinder/1Record%20of%20Assessment%20Book/COEA2.pdf>.

Alternatively, you can purchase a printed copy through the Linx2Product portal at a small cost.

6.3 Creating a portfolio of evidence

Learners are required to produce a portfolio of evidence mapped to all learning outcomes and assessment criteria within this qualification. The evidence will confirm the knowledge, understanding and skills gained and can be in electronic or paper format.

Assessors will provide guidance on how to prepare a portfolio of evidence.

Evidence for this portfolio can take the following forms:

- Observed work
- Written questions
- Oral questions
- Assignments

All evidence should be documented in the portfolio and cross-referenced to unit outcomes.

7 Assessment Guidance

7.1 Achieving assessment criteria

To achieve this qualification, the mandatory and a sufficient number of optional units must be achieved with valid, authentic and sufficient evidence for all the assessment criteria.

7.2 Internal assessment

Assessment tasks are set and marked by centre staff. Standardisation is required by the centre to clearly demonstrate consistent achievement of the learning outcomes and assessment criteria across all learners, cohorts and centres.

7.3 Formative assessment

Learners are encouraged to undertake formative practical assessment opportunities, where personal performance is identified through assessor and self-analysis. Targets for improvement can be identified using the learning outcomes, assessment criteria, unit content and the additional performance standards, to prepare for summative assessments.

7.4 Practical assessment requirements

VTCT will not specify explicitly the number of assessment opportunities a learner must be given per unit/qualification. Learners can continue to be assessed/re-assessed until the end of their programme. It will be the unit grades achieved at the point of claiming for the certificate that will contribute towards the qualification grade.

7.5 Holistic assessment

Holistic assessment is actively encouraged for this qualification.

Holistic assessment is defined as – naturally occurring evidence from learner assessments that is captured and referenced across the unit or other units in the qualification. One piece of evidence may be used to meet the requirements of more than one assessment criterion.
