UBT120M\_v3

# Theory only mandatory unit

This unit is a theory only unit. Unit content, describing what should be covered in teaching and learning and via formative assessment can be found in the Unit Specification. The Unit Specification can be found here <http://qualifications.vtct.org.uk/finder/unitpdf/UBT120M.pdf>. This unit will be assessed as part of the external examinations at the end of the period of learning.

The external examinations will comprise of a written paper with two sections, A and B. Learners will have to complete both sections and there will be no optional questions in either section. Section A consists of a blend of multiple choice and short response questions which will assess knowledge and understanding across the breadth of mandatory units. Section B will largely include extended response questions. Each of these will challenge learners in the application of knowledge and understanding, in a practical technical context.

This unit will be assessed as part of one of two final external examination papers. Each exam will comprise of a written paper with two sections A and B.

Learners will have to complete both sections and there will be no optional questions in either section.

Section A consists of a blend of multiple choice and short response questions. Section B will consist of extended response questions. Real –life case studies, scenarios and client examples are used to ‘set the scene’ and provide the basis for objective assessment of applied knowledge and understanding.

**There are no Assessment Records required by VTCT for this individual unit.** Achievement will be recorded as part of the record relating to the external examinations for the overall qualification.
