Service portfolio

Learners must:

Produce a service portfolio that includes evidence of practical services carried out with proficiency. The service portfolio is an evidence requirement which must be completed prior to learners undertaking the practical assessment. VTCT specifies the services to be carried out and evidenced in the portfolio.

The service portfolio can be used as a confirmatory and formative assessment to prepare learners for the practical assessments. The purpose of this portfolio is to evaluate learner performance and use the information gathered to shape and improve the learner's performance in preparation for summative assessments.

Centres should consider the use of formative self and peer assessment as part of the learning journey. Whilst service portfolios are not graded, they may be sampled by the EQA.
