## Creatively style and dress hair

This unit is about using a variety of conventional and non-conventional styling and dressing techniques to produce innovative, fashionable, creative and personalised looks. The ability to combine and adapt a variety of styling and dressing techniques incorporating accessories and/or added hair is required in this unit.

To carry out this unit, you will need to maintain a high level of health, safety and hygiene throughout your work. You will also need to maintain a professional personal appearance and demonstrate effective communication skills.

The main outcomes of this unit are:

1. Maintain effective and safe methods of working when styling and dressing hair
2. Creatively style and dress hair

# Creatively style and dress hair

## Learning outcomes

On completion of this unit you will:

1. Be able to maintain effective and safe methods of working when styling and dressing hair
2. Be able to creatively style and dress hair
3. Know and understand how to maintain effective and safe methods of working when styling and dressing hair
4. Know and understand how to creatively style and dress hair

## Evidence requirements

1. *Environment*  
Evidence for this unit may be gathered within the workplace or realistic working environment (RWE).
2. *Simulation*  
Simulation is not allowed in this unit.
3. *Observation outcomes*  
Competent performance of Observation outcomes must be demonstrated on **at least six occasions on different clients**. Three observations must include hair up techniques and one must include the appropriate use of accessory(ies) or added hair.

Assessor observations, witness testimonies and products of work are likely to be the most appropriate sources of performance evidence. Professional discussion may be used as supplementary evidence for those criteria that do not naturally occur.

Assessed observations should not be carried out on the same day for the same learning outcome. There should be sufficient time between assessments for reflection and personal development.

You need to meet the same standard on a regular and consistent basis. Separating the assessments by a period of at least two weeks is recommended as competence must be demonstrated on a consistent and regular basis.

4. *Range*  
All ranges must be practically demonstrated or other forms of evidence produced to show they have been covered.
5. *Knowledge outcomes*  
There must be evidence that you possess all the knowledge and understanding listed in the Knowledge section of this unit. In most cases this can be done by professional discussion and/or oral questioning. Other methods, such as projects, assignments and/or reflective accounts may also be used.
6. *Tutor/Assessor guidance*  
Your tutor **must** refer to the '**Habia Assessment Strategy**' when delivering this unit to ensure that you cover all the requirements for this unit. This can be found on [www.vtct.org.uk](http://www.vtct.org.uk) under the relevant qualification page.  
  
You will be guided by your tutor/assessor on how to achieve learning outcomes and cover ranges in this unit. All outcomes and ranges must be achieved.
7. *External paper*  
There is no external paper requirement for this unit.

# Achieving observations and range

## Achieving observation outcomes

Your assessor will observe your performance of practical tasks. The minimum number of competent observations required is indicated in the Evidence requirements section of this unit.

Criteria may not always naturally occur during a practical observation. In such instances you will be asked questions to demonstrate your competence in this area. Your assessor will document the criteria that have been achieved through professional discussion and/or oral questioning. This evidence will be recorded by your assessor in written form or by other appropriate means.

Your assessor will sign off a learning outcome when all criteria have been competently achieved.

## Achieving range

The range section indicates what must be covered. Ranges should be practically demonstrated as part of an observation. Where this is not possible other forms of evidence may be produced. All ranges must be covered.

Your assessor will document the portfolio reference once a range has been competently achieved.

## National Occupational Standards (NOS)

All observation evidence and knowledge requirements from the NOS SKACH8. You must demonstrate in your everyday work that you have met this standard to creatively style and dress hair. This can be found on the NOS website [www.ukstandards.co.uk](http://www.ukstandards.co.uk).

# Observation range

You must practically demonstrate that you have:

<b>Used <b>both</b> creative styling and dressing techniques</b>		<b>Portfolio reference</b>
Conventional		
Non-conventional		
<b>Taken into account <b>all</b> factors</b>		<b>Portfolio reference</b>
Hair characteristics		
Hair classifications		
Desired look		
The occasion for which the style is required		
Hair length		
<b>Given <b>all</b> advice and recommendations</b>		<b>Portfolio reference</b>
How to maintain their look		
Time interval between services		
Present and future products and services		

It is strongly recommended that all range items are practically demonstrated. Where this is not possible, other forms of evidence may be produced to demonstrate competence.

# Developing knowledge

## Achieving knowledge outcomes

You will be guided by your tutor and assessor on the evidence that needs to be produced. Your knowledge and understanding will be assessed using the assessment methods listed below\*:

- Projects
- Observed work
- Witness statements
- Audio-visual media
- Evidence of prior learning or attainment
- Written questions
- Oral questions
- Assignments
- Case studies
- Professional discussion

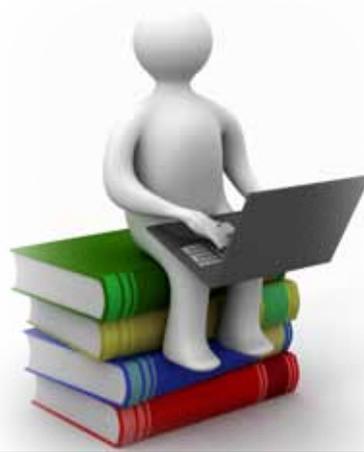

Where applicable your assessor will integrate knowledge outcomes into practical observations through professional discussion and/or oral questioning.

When a criterion has been orally questioned and achieved, your assessor will record this evidence in written form or by other appropriate means. There is no need for you to produce additional evidence as this criterion has already been achieved.

Some knowledge and understanding outcomes may require you to show that you know and understand how to do something. If you have practical evidence from your own work that meets knowledge criteria, then there is no requirement for you to be questioned again on the same topic.

*\*This is not an exhaustive list.*
