Provide client consultation services

This unit is about providing a comprehensive consultation and advisory service to clients. Client consultation is critical to the success of all technical services, ensuring that you fully engage with your client to meet their needs and expectations.

Client consultation is the foundation to establishing and building your client relationship and it is important that a variety of communication skills are demonstrated to gather key information. Making suitable recommendations for services and products based on this information and the results of your analysis of their hair, skin and scalp is an essential part of this unit.

The ability to provide advice including alternative courses of action, such as referral to other specialists, is also a requirement.

To carry out this unit, you will also need to maintain a professional personal appearance and a high level of health, safety and hygiene throughout your work.

The main outcomes of this unit are:

1. Establish client requirements
2. Analyse the hair, skin and scalp
3. Review options and agree on a course of action
4. Advise clients on hair maintenance and management

Evidence requirements

1. *Environment*
Evidence for this unit may be gathered within the workplace or realistic working environment (RWE).
2. *Simulation*
Simulation is not allowed in this unit.
3. *Observation outcomes*
Competent performance of Observation outcomes must be demonstrated on **at least three occasions**. These will cover consultations for three different technical units.

Assessor observations, witness testimonies and products of work are likely to be the most appropriate sources of performance evidence. Professional discussion may be used as supplementary evidence for those criteria that do not naturally occur.

Assessed observations should not be carried out on the same day for the same learning outcome. There should be sufficient time between assessments for reflection and personal development.

You need to meet the same standard on a regular and consistent basis. Separating the assessments by a period of at least two weeks is recommended as competence must be demonstrated on a consistent and regular basis.

4. *Range*
All ranges must be practically demonstrated or other forms of evidence produced to show they have been covered.
5. *Knowledge outcomes*
There must be evidence that you possess all the knowledge and understanding listed in the Knowledge section of this unit. In most cases this can be done by professional discussion and/or oral questioning. Other methods, such as projects, assignments and/or reflective accounts may also be used.
6. *Tutor/Assessor guidance*
Your tutor **must** refer to the '**Habia Assessment Strategy**' when delivering this unit to ensure that you cover all the requirements for this unit. This can be found on www.vtct.org.uk under the relevant qualification page.

You will be guided by your tutor/assessor on how to achieve learning outcomes and cover ranges in this unit. All outcomes and ranges must be achieved.
7. *External paper*
Knowledge and understanding in this unit will be assessed by an external paper. **There is one external paper that must be achieved.**

Achieving observations and range

Achieving observation outcomes

Your assessor will observe your performance of practical tasks. The minimum number of competent observations required is indicated in the Evidence requirements section of this unit.

Criteria may not always naturally occur during a practical observation. In such instances you will be asked questions to demonstrate your competence in this area. Your assessor will document the criteria that have been achieved through professional discussion and/or oral questioning. This evidence will be recorded by your assessor in written form or by other appropriate means.

Your assessor will sign off a learning outcome when all criteria have been competently achieved.

Achieving range

The range section indicates what must be covered. Ranges should be practically demonstrated as part of an observation. Where this is not possible other forms of evidence may be produced. All ranges must be covered.

Your assessor will document the portfolio reference once a range has been competently achieved.

National Occupational Standards (NOS)

All observation evidence and knowledge requirements from the NOS SKACHB14 are included in this record of assessment. You must demonstrate in your everyday work that you have met this standard for provide client consultation services. This can be found on the NOS website www.ukstandards.co.uk.

Observation range

You must practically demonstrate that you have:

Consulted with both types of client	Portfolio reference
New	
Regular	
Used both consultation techniques	Portfolio reference
Questioning	
Observation	
Considered all implications	Portfolio reference
Cost and frequency of maintenance	
Limitations to other services	
Changes to their existing hair and scalp care regime	
Adapted your advice to take into account all factors limiting or affecting services	Portfolio reference
Adverse hair, skin and scalp conditions	
Incompatibility of previous services and products used	
Client's lifestyle	
Test results	
Covered both courses of action	Portfolio reference
Offering information, advice and guidance	
Referral to sources of support in line with your salons procedure	
Taken into account all hair characteristics	Portfolio reference
Hair density	
Hair texture	
Hair elasticity	
Hair porosity	
Hair condition	
Hair growth patterns	

It is strongly recommended that all range items are practically demonstrated. Where this is not possible, other forms of evidence may be produced to demonstrate competence.

You must practically demonstrate that you have:

Worked on a minimum of 3 hair classifications	Portfolio reference
Type 1 – straight hair	
Type 2 – wavy hair	
Type 3 – curly hair	
Type 4 – very curly hair	

It is strongly recommended that all range items are practically demonstrated. Where this is not possible, other forms of evidence may be produced to demonstrate competence.

Developing knowledge

Achieving knowledge outcomes

You will be guided by your tutor and assessor on the evidence that needs to be produced. Your knowledge and understanding will be assessed using the assessment methods listed below*:

- Projects
- Observed work
- Witness statements
- Audio-visual media
- Evidence of prior learning or attainment
- Written questions
- Oral questions
- Assignments
- Case studies
- Professional discussion

**This is not an exhaustive list.*

Where applicable your assessor will integrate knowledge outcomes into practical observations through professional discussion and/or oral questioning.

When a criterion has been orally questioned and achieved, your assessor will record this evidence in written form or by other appropriate means. There is no need for you to produce additional evidence as this criterion has already been achieved.

Some knowledge and understanding outcomes may require you to show that you know and understand how to do something. If you have practical evidence from your own work that meets knowledge criteria, then there is no requirement for you to be questioned again on the same topic.

Achieving the external paper

The external paper will test your knowledge of all criteria in this section. **A pass mark of 70% must be achieved.**

Your assessor will complete this table when the 70% pass mark has been achieved.
